Topics Intercultural/intergenerational education and (lifelong)learning ; Creativity and culture ; Key Competences (incl. mathematics and literacy) - basic skills

Project Summary

Objectives

By implementing of the project we want to achieve next of our project objectives :

- To increase of the awareness of the existing possibilities and opportunities of young people, as well as their potential (self-esteem, self-confidence, etc.);
- To develop key competences - social and life skills;
- To encourage young people to be ready for taking challenges, openness for changes and diversity;
- To build intercultural connections: connect to different cultures and sub-cultures, to enhance their solidarity and tolerance;
- To inspire collective thinking, critical thinking and sense of initiative of young people;
- To encourage young people to be open and responsive to new and diverse perspectives and to increase the participation by young people in the civic life of their community.

Activities

We plan to implement two activities:

1). APV meeting: for project successful implementation, we planned working meeting in Mohammedia, Morocco. During the APV meeting we are planning to discuss all project related issues to divide our tasks and create our working plan, where we will describe detaily project activities, home tasks, pre-departure meeting with participants, visa and security issues.

2). Youth Exchange: "SkillShip: It's time to build your ship"

Dates: 16.09-23.09.2020

Venue: Mohammedia, Morocco

We will have participants from 7 countries: Estonia, Lithuania, Italy, Slovakia, Egypt, Morocco, Palestine.

We plan to use non-formal learning methods such as games, energizers, simulations, work-shops, role-plays, mind mapping, re-framing ,outdoor activities etc.

Participants profile:

We are looking for 18-25 years old, motivated young people who want to enhance social and life skills and interested in discovering new cultures. Participants background are comprise participants with fewer opportunities, such as cultural differences, educational difficulties, geographical and economical obstacles. Totally we will have 35 participants - 1 leader and 4 participants from each country.

Impact

Our desired impact is that we change the scale in terms of contribution do, involving the local community and to influence them. Project's impact on youth will be to evoke their new way of thinking and to encourage them to take challenges and to promote their sense of creativity. Also, to increase their understanding of solidarity.

As, on the last day of the project we will have time to discuss the ideas we are expecting that at the end our participants will have clear image of their new opportunities and opened skills and they will offer new ideas. Beside that, new intercultural connections will help participants to communicate with each other and plan and implement something new ideas together engaging their local communities as well, this connection networks help to spread experience they gained to the project. This will help many other youngsters (local, national and

international level) to get motivated, develop their competences and skills to improve themselves. Thus, one of the most important aspects of the impact of the participants, the organizations and the target audience is the multiplier effect of when each member of the project and potential interested parties will receive the necessary and interesting information, materials and other sources, take part in the discussion, will be inspired to spread their knowledge, experience and new skills to promote creativity in their countries.
